

Kamal Kakish – Professional Recommendations (2025)

Dixie Wolmers – Software Developer, IBM

April 17, 2025 – Teammate at IBM CIO Monitoring & Event Automation

“I had the pleasure of working with Kamal on the IBM CIO Monitoring and Event Automation team, and he was truly a joy to collaborate with. Always bringing a positive attitude and a genuine eagerness to learn, Kamal was a great partner in troubleshooting and idea-sharing. One standout moment was when he resolved a persistent issue with our Slack integration—his solution was not only effective but also well-documented and thoughtfully organized to align with our backend. Kamal’s contributions made a real impact, and any team would be lucky to have him!”

Michael Booz – Software Engineer, IBM

April 6, 2025 – Teammate at IBM

“Kamal is an excellent software engineer and a reliable teammate. I had the opportunity to start at IBM at the same time as Kamal, and we’ve worked together on many projects. Through his work integrating AI virtual assistants into Slack, developing full-stack applications, and automating app lifecycle tasks — Kamal has amassed a deep and transferable skill set. He’s dependable, curious, and always ready to help or grow in new technical areas.”

Michael Wanderski – Lead Architect, IBM CIO

March 26, 2025 – Kamal’s Manager at IBM

“Kamal is a highly skilled developer with deep expertise in automation, AI-driven chatbots, and communication. He played a key role in designing and implementing AI-powered automation frameworks that streamlined workflows and improved user experiences. His ability to leverage technologies like watsonx Orchestrate and communicate complex solutions in an engaging way made him stand out. He’s both a strong technical contributor and a trusted team member. I highly recommend him.”

Dr. Jean Chu – Professor, Kean University

May 20, 2022 – Instructor at Kean University

“Kamal is one of the most exceptional students I’ve encountered. He brings strong leadership, analysis, and design skills to team projects while knowing when to let others lead. His curiosity and willingness to take risks with technical challenges suggest there’s no limit to what he can achieve.”

Eugene Beytenbrod – Global Director of Engineering, ISS

May 9, 2022 – Kamal’s Manager at ISS

“Kamal is technically knowledgeable and a pleasure to work with. He has deep experience in support, design, implementation, and development. Always a team player and quick to help others, there’s rarely a problem he can’t solve.”

Plinio Figueiredo – IT Senior Software Engineer

December 10, 2019 – Teammate

“Kamal is a proactive employee with strong technical capabilities. He handles complex problems and clients with professionalism, always delivering great service.”
